## WARLIKE ASPECTS.

The last steamer from Europe brought intelligence that very active preparations were making in all the naval arsenals of Great Britain to build and equip an additional number of steamers and ships of war. The N. York Evening Gazette of Nov. 4th publishes the following extract from a private letter written by a gentleman now in England and who has recently visited most of the Dock Yards there:

"The activity in all the English Dock Yards is unprecedented, and I have in vain endeavored to discover the cause. The number of war steamers now being built is unusually great. No one here has any idea of a rupture with France, many believe the English government mean to take strong ground in regard to Oregon—and some think the Government are negotiating for California. The forts erecting on different parts of the coast are also the subjects of much surprise and remark.—There can be no doubt that a war is in prospect—but with whom the people here are entirely at a loss to conjecture."

Simultaneously with this intelligence come rumors that Mr. McLane, our Minister to England, has written home for further instructions, or for leave to return, and has intimated the belief that the question in dispute between the United States and Great Britain, in relation to Oregon, threatens to involve the two countries in a war.

Our Eastern exchanges are full of speculations as to the meaning and issue of these various portents, and it seems to be conceded by all that Mr. Polk's message to Congress will go far to determine whether we are to have Peace or War. If that Message shall deny England's right and title to any portion of Oregon, and recommend Congress to adopt early measures for asserting our claim to the whole Territory, the question will hardly escape the arbitrament of the sword. That such will be the spirit, if not the letter, of the forthcoming Executive missive, seems to be pretty clearly indicated by the tone of the Washington Union, which announces editorially the determination of the Government to assert and exercise jurisdiction over "every rod" of the Territory of Oregon, from the Mexican boundary on the South, to the Russian possessions in the North. It can hardly be expected that England will quietly submit to this summary mode of adjusting a controversy which has been pending between the two countries for many years; and it is doubtless to meet the anticipated contingency of a break with the United States that she is now arming and augmenting her Navy—Meanwhile our own Government, as is its wont, takes things quietly, makes no sort of preparation, and appears to regard a collision with England as of no more account than the recent pitiful squabble with Mexico. But if war should come, we trust that Mr Secretary Marcy will not send our troops to Canada, as he did to Texas, without tools to make entrenchments, or guns to defend them.—

Prejudice aside, we must admit that John Bull is a "tough customer," on sea, or land, and if we are to have a brush with him, it will need both time and training to put us in condition.

WISCONSIN MARINE & FIRE INSURANCE CO.—We are somewhat surprised to see a number of resolutions, purporting to have been adopted at a meeting in Walworth county, and assailing the credit of the Wisconsin M. and F. I. Company, copied into the Courier of yesterday morning with the expression of the Editor's "hearty concurrence" in their general principles. One of these resolutions charges that the wheat buyers at the Lake ports are in the habit of "exchanging their Eastern funds and specie" for the Insurance Company's certificates of deposite, for the sake of one or two per cent premium, and "attempting to bribe farmers to take them by offering less by one or two cents per bushel for their wheat, payable in Eastern funds, than in these certificates." We should like to know at what "Lake ports" this remarkable practice prevails. Certainly not in Milwaukie, for the farmers can always get specie for any amount of these "certificates" here. Neither can Chicago be the point alluded to, for there the difference between the "certificates" and "eastern funds or specie" is only a quarter of one per cent. In a word the charge is, upon its face, a preposterous one and, as we are assured, without the slightest foundation.

OREGON AND THE TARIFF.—The Courier assures us, on the authority of the Union, that not the slighest hint has been thrown out at Washington about swapping the Tariff for Oregon. The Courier's assurance, like the Union's authority, is good for nothing, in view of the fact that the official organ did publish, as we stated, a letter from its transatlantic correspondent, embodying this suggestion. It was doubtless put forth as a "feeler"; but as the press and the people evidently do not relish this mode of settling the Oregon question, the Union now makes haste to disavow the proposition. So, too, but few since, Father Ritchie published a letter from another of his European correspondents, assailing and calumniating the private character and habits of the King of Prussia. Next day the Prussian Minister made a strong representation to Mr. Buchanan on the subject, and the day following Father Ritchie disavowed the letter and vouched editorially for the excellence of the King of Prussia's private habits, and the purity of his morals!

DAILY MAIL FROM CHICAGO.—We understand that Messrs. Frink, Walker & Co., of Chicago, and Davis & More of this town, who have the mail contract between the two places, will run a daily mail (Sundays excepted) during the winter. Their contract only binds them to bring the mail three times a week; but partly to divide the load and partly with a view to accommodate the public, it is their intention to bring it every day. They did the same thing last winter without receiving any compensation therefor, from the P. O. Department. Hence the greater reason why the public should extend to them a liberal patronage.

AN EASY TASK.—A writer in the Union, Mr. Polk's organ, is trying to prove that the Whig Tariff is a bad affair by quoting *English* opinions against it. We have no doubt that this zealous advocate of British Free Trade can find equally conclusive arguments, in the same quarter, against our claim to Oregon, or our right to a free and independent government.

## The New York Canals.

The present year has been the busiest ever known on the New York Canals. From the very commencement of the season trade has been exceedingly active, and now that the approach of winter threatens a suspension of the navigation, everything that can float has been put in requisition at the different shipping places on the Canal to carry produce to tide-water. A glance at the subjoined table of the tolls received during the 4th week in October, and up to the 1st of November, for each year during the past seven years, will give the reader some idea of the amount of business transacted on these great commercial thoroughfares:

| | 4th week in Oct. | Total to 31st Oct. |
|---|---|---|
| 1839, | $89,114 | $1,411,677 |
| 1840, | 99,928 | 1,530,527 |
| 1841, | 114,662 | 1,792,486 |
| 1842, | 102,855 | 1,525,525 |
| 1843, | 123,172 | 1,626,670 |
| 1844, | 113,567 | 2,142,414 |
| 1845, | 165,795 | 2,246,278 |

The receipts for the last week in October of the present year are larger by *forty-two thousand dollars* than those of any week in any previous year. The aggregate tolls for 1844 were greater by three hundred thousand dollars than were ever before received in any one year. Yet the tolls for 1845 are already one hundred thousand dollars in advance of these, with every prospect of a still larger excess! It is supposed that the total receipts from the Canals this year will fall but little, if any, short of *two millions, seven hundred thousand dollars*.—This princely revenue will not only suffice to pay all the costs and charges of the public works, the interest of the State Debt, and the expenses of the State Government, but after all these items are provided for, there will remain a surplus of some seven or eight hundred thousand dollars. Such are some of the fruits of an enlightened system of Internal Improvements. And yet it may truly be said that the system is still in its infancy. It is only within a very few years that any considerable amount of Western produce has been sent down the Erie Canal. As late as 1839 flour was imported into Michigan. No longer ago than last spring flour was brought here from Buffalo, for the consumption of the Territory. Michigan, instead of importing, now exports her millions of bushels of wheat and barrels of flour, the great bulk of which find their way to tide-water via the Erie Canal. Wisconsin, too, has become an exporting region. But we have just begun to send off a surplus of agricultural products. Five years hence *our* exports will be greater than are those of Michigan now. And Michigan, meanwhile, as well as Illinois, Indiana and Ohio, will have added largely to the amount of her exports. The Erie Canal is and must continue to be the great outlet, from the Lakes to the Atlantic, for this accumulating flood of Western produce. Who will undertake to say what the amount of this trade will be when the Agricultural resources of the States and Territories bordering the Great Lakes shall have been fully developed?

THE GLORIOUS EIGHTH DISTRICT!—The recent election in New York has furnished another proof of the steadfast and unwavering political faith of the Eighth Senate District. This is, emphatically, the garden spot of the Empire State, and yet not more remarkable for the fertility of its soil, than for the industry, intelligence and enterprize of its population. Every county in the District gave, at the last election, as in many previous contests, a decisive Whig majority, and altogether they present the following aggregate:

| | | |
|---|---|---|
| Orleans, | 150 | Whig maj. |
| Niagara, | 250 | " |
| Wyoming, | 500 | " |
| Genesee, | 700 | " |
| Monroe, | 1150 | " |
| Chatauque, | 1200 | " |
| Erie, | 1535 | " |
| | 5485 | |

And this, be it remembered, in a light poll, and when there was no motive for any exertion beyond what was just enough to elect the Whig ticket.

☞ We received several bushels of newspapers by the mails of Tuesday night, but only a single copy of the *Buffalo Commercial Advertiser*. As we value the Advertiser beyond most of our Eastern exchanges, both for its commercial intelligence and its sound Whig principles, we miss it greatly. Will our friends of the Commercial see that their paper is properly *directed* and regularly sent to us?

☞ The German Democratic Association of Washington County have resolved that "it would be expedient to form a separate legislative election district of that county, and have notified the representatives from this district to that effect.

☞ The Racine Advocate of the 18th inst. "hears that the schooner Michael Dousman of Milwaukie is lost." We are happy to inform our friend of the Advocate that the rumor is unfounded. The Dousma arrived here safe and sound on Monday last.

☞ Our friend EMERY has received, from New York, some kegs of Malaga grapes. They are in fine order and tempting, alike, to the eye and the palate.

☞ There is a proposition on foot among the Western towns for a division of Milwaukie County. We have not heard the grounds upon which this change is sought to be made.

☞ A writer in an agricultural journal condemns the use of blind bridles. He says that "if the Creator had intended the eyes of horses to have been half blinded, that appendage would have been provided in the natural way. Art never invented a more fatal thing to the eyes of horses. Blind bridles and diseased eyes are inseperable."

THE OREGON TRADE.—The Cincinnati Chronicle says,—"The last intelligence informs us that there are now two packets running between Oregon City and Honolulu, one of the Sandwich Islands. One of these is an American packet, and the other belongs to the Hudson bay Company. This fact is the initial of one of the greatest Commercial Revolutions which the world has seen. Look at the map. Fix your points at Liverpool, Boston, St. Louis Oregon City, and Canton. Then calculate the freight and time required by a bale of goods transported around Cape Horn to Canton.—Then take the same bale of goods by steam car from Boston to Oregon City, and then by steam packet from Oregon to Canton! If the goods go from England, by Cape Horn, it will save ten thousand miles to take them across the American Continent! If they go *from* the U. States, there is a saving of *two thirds* the whole distance! That the trade of the United States will take that course, provided the communication is by steam, no one can doubt. It is vain to talk about the Panama route, if you can go by steam to Oregon."

## BABIES IN HOUSE.

A contemporary makes the following humorous remarks with respect to the Manhusian practice of landlords in letting their houses. We presume our community has not failed to remark this operation here: "Our landlords, it would seem, have commenced a war of extermination against children. If you wish to rent a house, the first question is, whether you have children; and if you have, the idea of a bargain is altogether out of the question. This notion seems to be, that children were made to live out of doors or under the stable with the pigs, and that those who are guilty of being incumbered with them, deserve neither sympathy nor house room.—Tenements in our city are not any too plenty, and to have every advertisement of an empty one touched off with the provoking finale, that it will be rented low to a 'genteel family without children,' as though genteel families were never guilty of having children, is decidedly vexing to gentlemen as well as anxious mothers. And it is not very encouraging to 'home manufacturers' either."

IRISH WIT.—"Here, my darling," said Paddy, holding a newspaper to Norah, who was polishing the tea-kettle, "I can just read enough to make me wish I was a mason and you a carpenter, my jewel. Ah, ah, ah; James Mason married to Mary Carpenter. A nate concern and a chape contract, no lawyer being wanted, Norah, to make any mistake."

WARREN COUNTY AGAINST THE WORLD.—Mr. John Evans, a farmer of Pahaquarry township informs us that in gathering his buckwheat crop, he found a single stalk which produced five thousand two hundred and seventy-five grains!—[Warren (Penn) Journal.

BRILLIANT BALL.—A ball was given at Havana on the 16th ult. by the Conde Fernandina, which was attended by about seven hundred persons. Gen. Santa Anna, lady and suite, attended. The wife of the ex-President of Mexico wore upon her person 50,000 dollars' worth of diamonds. Another lady at this ball sported $40,000 in diamonds in her attire, while ten and twenty thousand dollars' worth of 'pebbles' were quite common. The service of plate on the supper table was valued at 35,000 dollars. The Count's income exceeds 120,000 dollars per annum.

DISTRESSING SUICIDE.—We learn from the Hagerstown Torch Light, that on Wednesday morning, David G. Yost, Esq. one of the oldest and most worthy citizens of Hagerstown, committed suicide by shooting himself with a pistol through the temple. Owing to great pecuniary embarrassments, in which he had recently become involved, says the Torch Light, he had been for several days laboring under a great depression of spirits, and those who observed closely his actions, discovered that his reason had been materially impaired. He committed the deed in his own office, about 10 o'clock in the morning, where he was found some time after, perfectly dead.

The steamboat Oceola arrived at Norfolk on Sunday night from Washington, with one hundred and forty-seven colored persons, men, women, and children, emigrants for Liberia. These people were liberated by will on two estates in Virginia, and are to be conveyed to their new home in the ship Roanoke, which was to sail on Tuesday.

PICTURE OF VIRGINIA.—The Richmond Whig, taking for its text an extract from a speech on the subject of of Education by President Wayland, writes thus:

It the State of Rhode-Island, where nearly every adult reads and writes, is moved by the imperfect condition of Education, to seek a reformation of the system, and to extend the first of human blessings to a greater number and in a more perfect form, how ought Virginia to feel and act? Virginia, once the first North American community in diffused intelligence and general scholarship, now the flag bearer in the opposing ranks, and in her wide limits scarcely able to show 200 men who have even a pretension to *scholarship*? Virginia, where Demagogues have succeeded to Statesmen, interminable verbiage and misshapen declamation to the chaste, condensed and finished models of other days, and the most ignorant masses in the Union to the most enlightened in the period of the Revolution?

The picture we know is painful and revolting to the pampered vanity of the Commonwealth—pampered by political quacks and charlatans, as the readiest means of juggling themselves into prominence and place: but it is salutary that Virginia should contemplate it for all that; so are the cautery and knife painful in their operation, but the physician whose end is to preserve life, does not regard the amount of necessary pain to which he subjects his patient.

A GOOD SENTIMENT.—During the recent voyage of the Great Western, the passengers being of many nations, the following sentiment was drunk with the greatest enthusiasm:

"*Great Britain and the United States*—Let them show by their example that no controversy can exist among enlightened nations which cannot be amicably and honorably adjusted."—

PILING UP JOKES.—Speaking of wags—what is more waggish than a dog's tail when he is pleased? Speaking of tails—we always like those that end well—Hog's for instance—Speaking of hogs—we saw one of these animals the other day lying in the gutter, and in the opposite one a well dressed man; the first had a ring in his nose, the latter had a ring on his finger. The man was drunk, the hog was sober. 'A hog is known by the company he keeps' thought we, so thought Mr. Porker, and off we went. Speaking of going off, put us in mind of a gun we once owned. It went off one night, and we haven't seen it since. And speaking of guns reminds us of the "obsolete idea." We had one—a gun; not the obsolete idea—and it burst.—[N. O. Pic.

AN AFRICAN LAWGIVER.—King Freeman, a native African chief of great influence, whose territory adjoins that of the Maryland Colonization Society, near Cape Palmas, has given a code of laws to his people. He is represented to be sagacious and intelligent, and after studying the laws and religion of his neighbors from America he drew up a constitution, by which his people are now governed. King Freeman has the honor of establishing a constitutional government in advance of several European monarchs.—[Vermont Chronicle.

Hon. Daniel Webster, says the Manchester N. H. American, is at present on a visit to this state. We understand the new Northren railroad goes through his farm at Franklin, in such a way as will render the removal of the old family mansion necessary.

THE SPEAKERSHIP is looked at, we hear, with greedy eyes, by the following, among other members of the House of Representatives. What a pity all can't have the prize! Hon. Hannibal Hamlin, and Hon J. D. M'Crate, Maine; Hon. Geo. Rathbun, New York; Hon. I E Holmes, South Carolina; Hon. J. McDowell, Ohio; Hon. S. A. Douglass, Hon. J. A. M'Clernand, Illinois.

The Charleston Mercury, speaking of some of the twattle by which the Washington Union and the Richmond Inquirer defend the inconsistencies of Loco Focoism and palliate the recent Loco Foco defeats, heads the article after the style of the Covenanter's book, "*Hooks and Eyes for Believers Breeches.*" [N. Y. Express.

### Horrible Race—Fatal Accident.

The long talked of hurdle race was commenced in due form on the Beacon Course, yesterday at 3 o'clock, but instead of ending as a race, it was cut short by the following melancholy catastrophe.

Five horses had been entered as follows:

Mr. J. O'Conner's s. g. Quebec Buffer, from Quebec.

Mr. F. Owen's h. g. Black Douglas, from Montreal.

M. Oscar Sweatland's s. g. Snip.

Mr. Wm. Fox's b. g. Hops, from N. J.

Mr. G. C. Hathorn's c. g. Americus.

The man who was to ride the Jersey horse, Hops, being somewhat indisposed was unable to perform his duty, and Mr. C S. Browning, the proprietor of the Course, took his place. Four hurdles had been erected, each four feet high—one of them to be leaped twice. At the tap of the drum the horses were brought forward, and as soon as practicable started, Hops taking the lead and clearing the first hurdle finely. At the second hurdle, which was near the judges' stand, Hops struck his knee against the top and pitched over, throwing Mr. Browning forward with great violence. He fell in a cramped position, his head first striking the ground and his body being elevated upon his head, hands, and knees. The horse immediately passed over him crushing him into a straight position, and cutting his face deeply from the brow to the chin. Another horse close following, struck him severely with his foot just below the shoulder blade.

He was immediately taken up and conveyed into the main stand, giving not the least sign of life, and supposed by every one to have had his neck broken. Two physicians were in attendance, who by the utmost care and difficulty succeeded in partially restoring circulation; but the balance hung so evenly between life and death, that a hair would have turned it. They found no bones broken, but a very severe concussion of the brain, and much internal injury, caused by the falling of the horse upon him. As soon as conveyance of a proper kind was procured, he was taken to his house, where he died at half past four o'clock.

In the meantime, the horses Americus, Snip, Black Douglas and Quebec Buffer went round the track in good style and came in in the order named, Americus winning easily.

At this stage we supposed the race would be adjourned; but it was otherwise decided, and after Hops had gone round the track, the horses were called for another heat. Loud and long were the murmurs at this continuation of the race, while a fellow being was lying before their eyes in such extreme peril; but as no one asserted the authority which every one possessed, of ordering a discontinuance, it was suffered to go on, and the riders mounted for the second trial. Snip was withdrawn, and Hops, Quebec, Black Douglas and Americus took the field. The hurdles were cleared well by all until they reached the one at the half-mile post, where Americus who had taken and kept the lead, broke down in coming over, and rider and horse for a moment disappeared. The horse, however was soon up, but the rider, Terence Gunning, did not appear, and a rush was made to the spot. He was found lying near the fence, his face bruised and deathly pale, and his eyes wandering in deferium—looking even worse than Mr. Browning. His injuries appeared to be pretty severe, but not such as to endanger his life; though he will undoubtedly suffer weeks and perhaps months from the inward effect of the concussion.

*A Man for Sale at the Capitol of this Nation.*—The Daily Union of Tuesday, the 7th inst. President Polk's official organ, publishes the following advertisement:

"*Notice.*—Will be sold, at the jail of Washington county, D. C. on Friday the 7th of November, 1845, at 10 o'clock, A. M. a negro man, committed as a runaway, who calls himself John Smith. He is a dark mulatto, about 6 feet high, and about 28 or 29 years of age. Had on when committed, a striped summer coat and pantaloons, a black fur hat, and has other clothing with him, principally home made. He says he is a slave, and belongs to a Mr. John Smith, who lives in Henrico county, between Petersburgh and Richmond. He has a scar under the left eye and on the upper lip, and says that his master's nearest neighbor is Mr. J. Richardson.

The owner or owners of the above described negro-man are hereby requested to come forward, prove him, and take him away, or he will be sold for his prison and other expenses as the law directs.

ROBERT BALL, Jailer.
*for A. Hunt, Marshal D. C.*

The following colloquy actually occurred, some few trips back, between a steamboat captain and a *customer* on the banks of the Mississippi, who was sitting on a pile of cord wood, as the boat passed by:

Capt. B. hailed him—"What wood is that?"

"It's *cord-wood*," replied the chopper, with great unconcern.

"How long has it been cut?" enquired the captain.

"*Four feet*," said the wood merchant.

"Give her a lick ahead," said the capt., to cut short the sparring. "Tell your friends if ever you get drowned to look for you at the Falls of St. Anthony!

DEATH OF GEN. GIDEON FOSTER.—We regret to see announced in the papers the death of General Gideon Foster, of Danvers. He died on Saturday morning at the advanced age of 96. Gen. Foster commanded the minute men of Danvers, who, on the 19th of April, went to Lexington to meet the English troops. Several of his brave soldiers were killed on that day. He was a noble old gentleman, a true patriot, and a Whig of 1775 and 1844.

PRICE OF UNCONSUMATED COURTSHIP.—In the case of Jane Millay against Charles H. Sawin, of Shrewsbury, for breach of promise, the jury this morning returned a verdict for the fair plaintiff, giving $300 damages. The conversational part of the courtship occupied fifteen hours which at the time were deemed and taken to be the pleasantest part of two November days. Twenty dollars an hour, however, is a higher price probably than the defendant expected to pay for his portion of the enjoyment. It is supposed that he is worth about $1000, and, if it should turn out to be so, the lady will get her "third," without the the inconvenience of having had to marry and bury a "poor fellow, with but small talents," as he described himself in one of his letters. The brevity of the oral intercourse between the parties was admirably and wittily handled by Charles R. Train, Esq., of Farmington, who was counsel for the defendant.—Referring to the former connection of the parties with the society of Brother Himes, he maintained that this interview was only a communion of the saints on celestial topics, and could have no reference to a union in this world.

J. L English, Esq on the other side, thought that Sawin's desire to be "united in heart and hand" with Jane, and "to grasp her affectionate hand," in winter, had a very terrestrial twang.

No exceptions were taken to Judge Merrick's rulings or charge. He took a humane and common sense view of the case in all its bearings.—[Boston Post.

GOVERNMENT FINANCES.—The receipts of the Treasury Department for the quarter ending September 30th were $9,360,460 49; the expenditures, $8,163,092 41.

PARRICIDE.—An inquest was held over the deceased remains of Mr. Lazarus Maddox, at his residence near Dublin, a few days since. The jury in attendance sat but a short time, when they returned the following verdict: "The deceased came to his death by blows supposed to have been inflicted by his wife and son." The latter (George Maddox) was immediately arrested and lodged in the county jail to await his trial.—Somerset (Md.) Herald.

*American Ice in the East Indies.*—The Ice trade is one of considerable magnitude. The quantity shipped from Boston last year, is said to have been 55,000 tons delivered on board at a cost of $250 per ton, while the product of sales is put down at $3,575,000. A building 40 feet high, 178 feet wide, and 198 long, enclosing more than three quarters of an acre, and capable of holding 30,000 tons of ice has been erected at Calcutta.

A TELEGRAPH RACE PROPOSED.—Mr. Vail, the superintendent of the Washington Terminus of the Telegraph from this city, has published a card, in which a challenge is given to Mr. House, the inventor of a plan of communicating intelligence which some newspapers have altered to be superior to that of Professor Morse, to test the relative merits of the two inventions; so that the controversy as to which of the two methods is the most expeditious, will, if Mr. H. chooses, soon be put to a practical test.—[Balt. SHIPPING OF THE PORT OF N. YORK.—The Merchants' Magazine for the present month contains a valuable table, carefully prepared from the books of the Custom House for the port of New York, showing the number of registered and enrolled vessels, of all denominations, owned in that city; also, the amount of their tonnage.—The district of New York includes all the cities and towns on the Hudson river, between New York and Troy; also, all that part of New Jersey lying east and north of Elizabethtown and Staten Island. Some idea of the magnitude of the commercial interests of N. York can be formed from an inspection of this table. It includes about one thousand vessels, and a tonnage of 290,000 tons! The whole tonnage for the district of New York, for 1844, according to the treasury report, was 203,888 .28 tons registered, and 271,272 75 tons enrolled and licensed; making an aggregate of 525,162 02 tons. Of the vessels enumerated in the table, there are 308 Ships; 98 Barks; 225 Brigs; 247 Schooners; and 62 Steamboats.

RAILROAD MEETING.—A Meeting was held in this city to-day, and had under consideration the practicability and importance of the construction of a railroad along the South shore of Lake Erie, and West to Michigan City and Chicago. Judge Ely, of Elyria, was President, and B. F. Wade Esq. of Asabula county, Secretary. Hon. Elisha Whittlesey and Judge Mason, of Toledo, presented some eloquent and pertinent statistical remarks, an abstract of which, as well as the certified proceedings of the meeting, we hope to lay before our readers on Monday. [Cleve. Her. 8th.

IMPORTANT FROM MEXICO.—We find it stated in the Sun of this morning that advices of a pacific character have been received from an "eminent private citizen in Mexico," and that similar intelligence reached Washington Wednesday night, direct from the city of Mexico. Diplomatic relations will, it is stated, be immediately resumed between the two Republics. The accounts were brought by the steamship Mississippi at Pensacola 29th ult. five days from Vera Cruz.

The Intelligencer of Thursday and Friday and the Union of Thursday evening, the latest paper yet received here, are both silent in regard to these accounts which nevertheless may turn out to be, all that the Sun says they are. We hope so sincerely. [N. Y. Gazette.

A South Carolinian was recently offered a lucrative situation at the Balize. His duty would be to ascend the observatory, and, with the telescope descry ships at sea bound inwards. He would not accept it, because, he said, he was opposed to *all high duties.* [N. O. Delta.

## THE MARKETS.

SANDS' SARSAPARILLA.—Fever one of the most frequent and dangerous diseases to which the human body is liable. Its first impression is upon the nervous system; then the vessels of the skin become deranged, producing dryness and burning heat. After this the general system is involved, and the patient sinks beneath the attack, unless relieved by appropriate remedies. Noxious effluvia and various miasms are the cause of fever, being infused throughout the atmosphere, and then breathed into the lungs, where the poison combines with the impure fluids of the body and is cast off by the circulating organs to be removed by the various organs of the system. If then, the animal frame is kept in a perfect sound and healthy state, and every organ performing its functions properly, there can be no union of the predisposing cause, which is the noxious effluvia or marsh miasm, with the excitine, which is an impure state of the blood, and depraved condition of the general constitution, and consequently no disease.

For farther particulars and conclusive evidence of its superior value and efficacy; see pamphlets, which may be obtained of agents gratis.

SAY! STRANGER—have you been in LUDINGTON & Co's Store on the corner, since they have received their Fall stock of GOODS? If you have not, I really advise you to go. It is a strange thing indeed to see such a quantity of Goods, and so equal an assortment, in any one store. I have often heard people say that they had a very large stock of Goods, but I never had an idea that their stock was so tremendously large. I have been all around town, in their "Wholesale Stores," "Cheap Cash Stores," "One Price Store," "Great Excitement" Stores, "25 ₰ cent. less than any other House in the Territory" stores, "Fancy Stores," "New Stores," "Western Stores," &c. &c. but after visiting all, I put LUDINGTON & Co's store down at extra No. 1. You will find them willing to wholesale or retail Goods cheap for cash, at one fair price, without the least excitement, not 25 ₰ cent cheaper than any other store in town, and they have a fine assortment of Fancy Goods, and will sell as cheap as can be bought at any new store in this Western country. They have, according to the best authority and my own observations, the largest and best selected assortment of Goods in Milwaukie, and their prices appear to give first rate satisfaction among the people. It appears strange, but it is nevertheless true, that they should sell so many Goods to so many people. Why! you can hardly go into any town in Wisconsin, but what you will see undoubted evidences that they are doing a tremendous large business. As far out as the Mineral region—yes! miles farther you will see dry goods boxes, barrels, kegs, &c &c. with Ludington & Co's name on, which is a strong indication that they were sent there from their store, filled with Goods. Ask the principal residents of Milwaukie, Washington, Dodge, Walworth, Fortune, Fond du Lac, Marquette, and numerous other counties, where they buy their dry goods, groceries hardware, crockery, boots and shoes, leather, stone ware, wooden ware, sash, glass, ropes, paints, oils, pork, fish, salt, lumber, lath and shingles, and Minor & Horton's celebrated unrivaled Dough—they will tell you at the "Old Corner Store" in Milwaukie. Ask them still farther, where they sell their produce, wheat, corn, oats, barley, timothy and flax seed, beeswax, hides, &c. &c. and who gives the highest cash price, and they will tell you LUDINGTON & Co. of Milwaukie. oct19 Com.

WAR! WAR!!.—The Astounding Intelligence of a Declaration of War with Mexico together with the assurance that DAYAN has now open for examination his tremendous stock of FALL AND WINTER GOODS, this moment reached us.—Which will most affect the interest of the citizens of Wisconsin, and whether there will be a similitude in effect, is yet to be determined. That it is important that both should be immediately made known to the public, we are aware; therefore for expediency, we couple the announcement. Of the former we can only say, that the news came well authenticated. Of the latter we have it from numerous and reliable sources, both for extent, variety and richness, together with extreme cheapness, he has by far the best bargains ever offered in the western market. ## Milwaukie Iron Store.

HARDWARE IRON, NAILS &c.

NAZRO & KING are now receiving their Spring stock of heavy and shelf hardware, to which they will constantly be making additions. We are now able to offer a complete assortment of Goods in our line, to which we would call the attention of all who may wish to purchase for cash. Our stock having been laid in before the advancement, we feel confident that we can make such prices as will insure a ready sale. Having made arrangements with Eastern Hardware Manufacturers from whom we obtain our supplies, we can make it an object for country merchants to buy of us, and thus save them the disadvantage of buying an over stock. We shall endeavor to keep on hand a full stock of Tools and Farming Utensils, and will furnish at short notice, any amount of building material that may be wanted. Having adopted the system of serving all at one price, those who may favor us with orders, can rely on our doing as well by them as if they were here themselves.

EMPIRE HOT AIR COOKING STOVE.

L. J. FARWELL,

Roger's Block, on East Water-Street,

Now offers to the public this approved Cook Stove, of different sizes, to suit small families, or large Boarding Houses or Hotels. The high character which this Stove has obtained wherever it has been introduced, is a guaranty of its excellence. The complete success which has attended the introduction of hot air into the oven, and other improvements in the construction of the Empire Stove, justify him in warranting them to bake equally as well as a brick oven, and to perform all other operations in cooking with 50 per cent less fuel than any other cooking stove now in use.

An examination of the stove will ensure its sale, and a trial of it fully realize all reasonable expectations. aug 14

## BEST GOOD FOR EVER!

R. HOUGHTON takes this method to inform the customers of the late firm of R. H. & Co., and the public generally, that the business in future will be conducted by him at the *old stand*, where he will receive, in the course of the present week, a general assortment of *Fancy and Staple*

DRY GOODS,

Groceries, Crockery and Glassware, Hardware, Nails, Oils, Paints, &c.—All of which will be offered for sale at a *small* advance from *cost*, for *cash* or most kinds of *country produce*.

Believing the cash or ready pay system to be the cheapest and eventually the most profitable for the buyer as well as the seller, that principle will be adopted and strictly achered to.—He does not wish to 'puff' and boast of his long residence and extensive acquaintance in New York—great facilities and extraordinary abilities in purchasing goods, &c.: or even say he will sell *cheaper* than any body else—but he does wish to say, his motto being "live and let live," and on the principle that a "nimble sixpence is better than a slow shilling," that he will sell "*as cheap* as the *cheapest*." the truth of which, he pledges himself to demonstrate to the entire satisfaction of every one who may favor him with a call. may22
